- |        |  |   |
|--------|--|---|
| Sep 15 | Effects of Renewable Energy on Avian Populations   | Tara Conkling,<br>Ph.D., USGS                       |
| Sep 22 | The Ecology of Solar Energy Across Natural and Human-Dominated Landscapes                                | Rebecca R. Hernandez, Ph.D.<br>UC Davis             |
| Sep 29 | Pollinators, Prairie & Power   | Rob Davis<br>Connexus® Energy                       |
| Oct 6  | Navigating GHG Emissions and Socioenvironmental Tradeoffs from Hydropower                                | Rafael Almeida, Ph.D.<br>Cornell University         |
| Oct 13 | A Water-Energy-Food Nexus Roadmap to Sustainable Solutions   | Majdi Abou Najm, Ph.D.<br>UC Davis                  |
| Oct 20 | Bridging Disciplines to Explore Environmental Resilience and Equity across Water, Food, & Energy Systems | Caitlan A. Grady, Ph.D.<br>Penn State University    |
| Oct 27 | "Well, we have to put it somewhere": Social Considerations in Solar Siting                               | Richard C. Stedman, Ph.D.<br>Cornell University     |
| Nov 3  | Behind the Light Switch: Understanding Cradle-to-Grave Land Transformations of Energy Systems            | Sarah M. Jordaan, Ph.D.<br>Johns Hopkins University |
| Nov 10 | Sustainable Energy Transitions: Socio-Ecological Dimensions of Sustainability                            | Dustin Mulvaney, Ph.D.<br>San Jose State University |
| Nov 17 | Renewable Energy Ecology   | Steven M. Grodsky, Ph.D.<br>USGS/Cornell University |
